EXPERIENCE

MERN Stack Developer

Deepnap Softech   **May 2023 - Present, Neelam Chowk,Faridabad**

• Developed a dynamic and innovative software company called Deepnap Softech by working as a MERN developer.

• Developed and maintained web applications using the MERN stack , demonstrating proficiency in both front-end and back-end technologies.

• Designed and implemented responsive user interfaces using React.js, ensuring a seamless user experience across various devices and screen sizes.

• Collaborated with cross-functional teams to gather and analyze requirements, translating them into technical specifications and project plans.

• Utilized Node.js and Express.js to build robust and scalable server side APIs, enabling efficient data exchange between the front-end and back-end systems.

PROJECTS

Gr Financial (A Client Management Software)

Deepnap Softech • https://grfinancial.in/ • August 2023 -October 2023

• Developed the entire software solution from scratch, covering both front-end and back-end aspects.

• Utilized the MERN stack (MongoDB, Express.js, React, Node.js) for comprehensive and efficient development.

• Designed and implemented the database structure using MongoDB, ensuring optimal data organization for client management.

• Implemented core features for client management, including client profiles, contact details, and other relevant information.

• Developed functionality for dynamic data handling, allowing for easy updates, additions, and modifications to client records.

• Implemented search and filtering features to facilitate quick and efficient retrieval of client information.

• Integrated task management and calendar features to help organize and schedule client-related activities.

Jhev-Motors (A-EV Company)

Deepnap Softech • https://jhevmotors.com/ • August 2023 - September 2023

• Implemented a full-stack solution using the MERN stack (MongoDB, Express.js, React, Node.js).

• Designed and developed a responsive and user-friendly front-end UI to ensure a seamless experience across various devices.

• Created a comprehensive admin panel allowing administrators to manage various aspects of the website.

• Developed a robust backend using Node.js and Express.js to handle server-side logic and API endpoints.

• Integrated MongoDB as the database to store and manage data efficiently.

• Integrated analytics tools to gather insights into user behavior and website performance.(Google Tag Manager)

EDUCATION

Masters of Computer Applicaton

Indira Gandhi National Open University

Bachelor of Computer Apllicaticon

Maharishi Dayanand University • Rohtak,Haryana • 2023 • 6.8

SKILLS

Technical Skills : Html, Javascript, Jquery, Bootstrap, Node Js, React Redux, React Js, Nodejs, Frontend, Javascript, Typescript, Css, Sass, Tailwind
